

Performance-Engineered for your Life Outdoors™

Trex®

The world's #1 brand of wood-composite decking

From small renovations to large-scale builds, professionals rely on Trex for consistent quality and dependable limited warranties.

Supported by a wide network of distributors and dealers in the industry, Trex products are distributed and available in more than 6,700 retail locations around the globe.

With decades of innovation and industry recognition, Trex remains the trusted choice of professionals and continues to set the standard in composite decking.

Trex is built around a simple idea: outdoor living should be beautiful and easy to maintain.

Combining superior durability and aesthetics, Trex outdoor living products offer a wide range of style options.

Our composite boards are performance-engineered to take on weather, and everyday use without the upkeep demands of wood.

Unlike wood, high-performance Trex decking resists mold, and won't warp, crack, flake or splinter.

Thanks to its proprietary shell, low-maintenance Trex decking never needs sanding, staining or painting. Just an occasional soap and water* cleaning is all that's needed to keep a like-new appearance.

*For details, visit **trex.com/care**

Made from 95% recycled and reclaimed materials

Trex uses recycled plastic film and reclaimed wood to create environmentally-friendly products.

Being one of the largest plastic film recyclers in North America, our entire high-performance composite decking portfolio is manufactured using 95% recycled and reclaimed materials.

Since our founding, we have upcycled more than 6.4 billion pounds of waste plastic film, transforming what was once discarded into beautiful, long-lasting outdoor living spaces.

Redefining Outdoor Living

HIGH PERFORMANCE

NO ROTTING, WARPING, OR SPLINTERING, BACKED BY OUR DEPENDABLE LIMITED WARRANTIES

SUSTAINABLE STYLE

SUSTAINABLY MADE USING 95% RECYCLED AND RECLAIMED MATERIALS

EASY INSTALLATION

TREX CUTS, DRILLS AND WORKS LIKE WOOD. IT'S EVEN AVAILABLE IN GROOVED-EDGED BOARDS FOR USE WITH TREX HIDDEN FASTENERS FOR AN EASY, SCREW-FREE FINISH.

DESIGNED FOR LASTING BEAUTY

ON-TREND COLORS FEATURE REFINED WOOD GRAINS THAT ADD BEAUTY TO ANY OUTDOOR SPACE

NATURAL AESTHETIC

OUR CURATED COLORS AND REFINED GRAIN PATTERNS DELIVER THE WARMTH OF NATURE WITH THE EASE OF LOW-MAINTAINANCE LIVING

LOW MAINTENANCE

NO SANDING, STAINING OR SEALING REQUIRED - EVER

*With SunComfortable™ Technology, raise the bar, not the temperature**

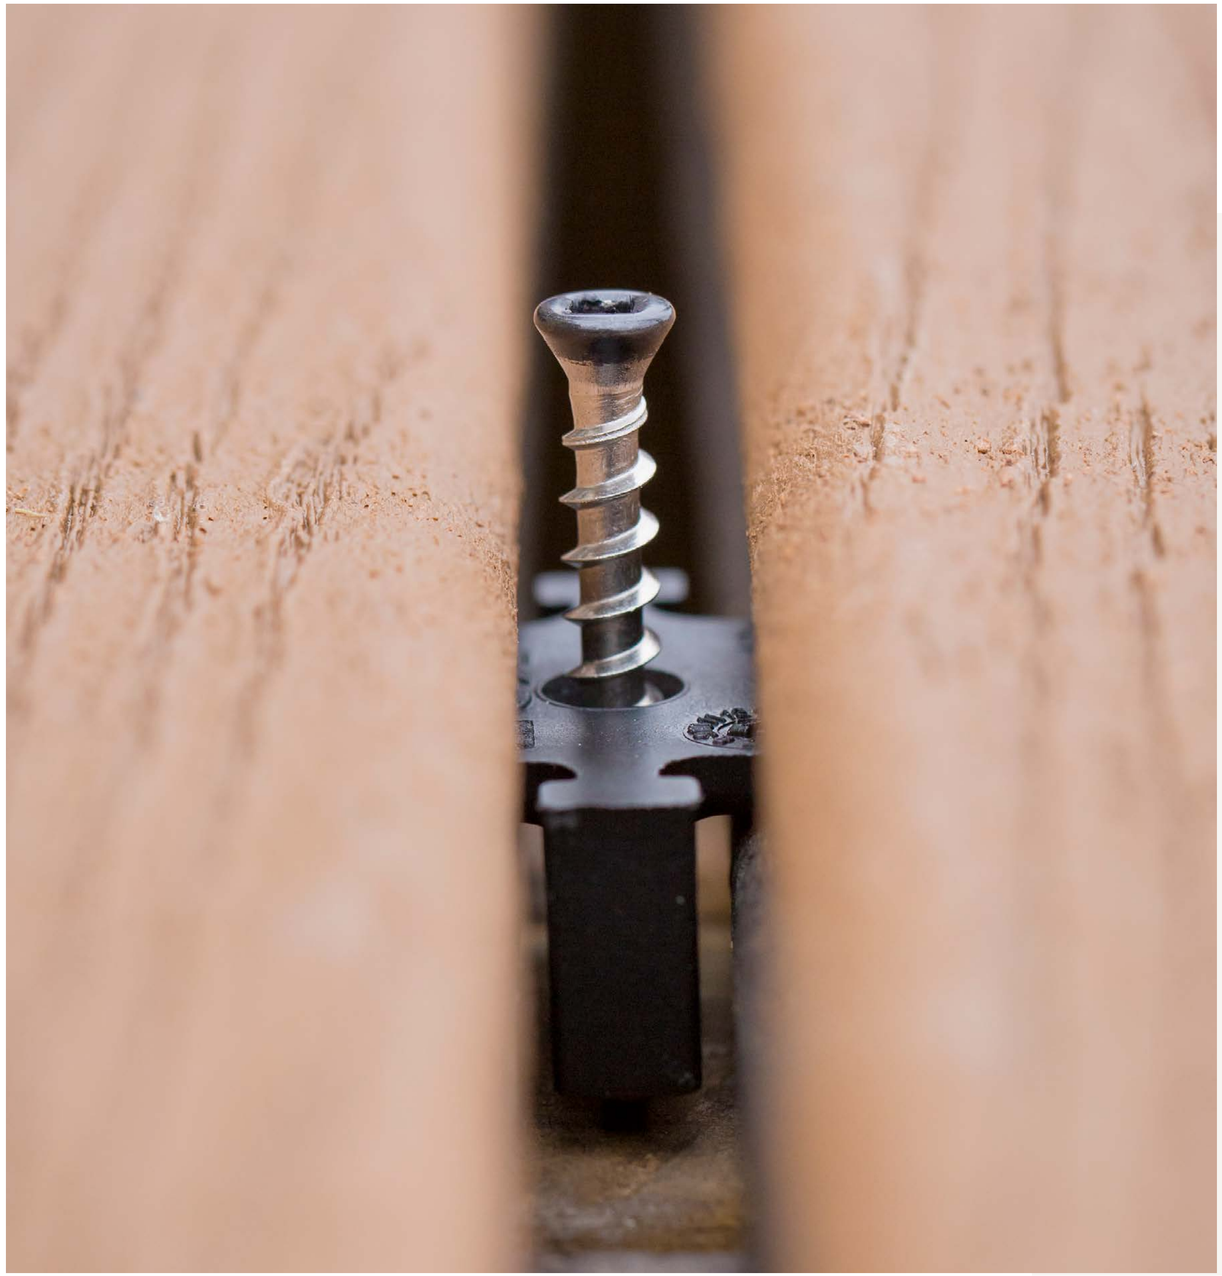

Trex SunComfortable™ Technology redefines what performance looks like in the heat. This heat-mitigating technology reduces heat absorption, keeping Trex deck surfaces cooler* than our original boards.

*Trex® decking with SunComfortable™ Technology stays cooler than our original boards, but like all decking, it will get hot in direct sun on hot days, especially darker colors. Care should be taken to avoid extended contact between exposed skin and the deck surface, especially with young children and those with special needs.

100% submersible decking built to last.

Our mold- and mildew-resistant boards can be submerged for extended periods—even multiple times a day with rising tides—without warping, splintering, rotting, or decaying.

Trex Hideaway® Hidden Fastener System

Compatible with our grooved decking boards, Trex Universal Hidden Fastener delivers a beautiful finish and seamless look, above and beyond.
